SUBJECT:

DOCKET NO. 2021-200-E - United States Department of Defense and All Other Federal Executive Agencies' Petition for an Order Granting a Waiver of the Queue Requirement of the South Carolina Generator Interconnection Procedures - Staff Presents for Commission Consideration the Petition for Order Granting Waiver of the Queue Requirement of the South Carolina Generator Interconnection Procedures, Filed on Behalf of the United States Department of Defense and All Other Federal Executive Agencies.

COMMISSION ACTION:

I move the Commission grant the Petition filed by the United States Department of Defense and other Federal Executive Agencies (DoD/FEA) for a waiver of the Queue Requirements of the South Carolina Generator Interconnection Procedures (SCGIP) related to DoD/FEA's Combined Heat and Power Project (Project) located at Fort Jackson in Columbia, South Carolina.

This Project is for two natural gas-driven combined heat and power units that will service two buildings used in Fort Jackson's training mission. The combined output from the Project is approximately 1.0 MW, and the energy from this Project will be utilized on the base as any excess power generated will be back-fed into Fort Jackson's utility distribution system to be utilized elsewhere on the Fort Jackson installation.

Dominion Energy South Carolina, Inc. (DESC) intervened in this docket. Based upon this Commission's prior ruling in Order No. 2020-535 in Docket 2020-63-E and the unique facts and circumstances of this particular case, DESC-stated it has no objection to DoD/FEA's request for a waiver of the Queue Requirement.

I further move the Commission find that it is in the public interest for waiver of the Queue Requirement in this matter and to require DESC to expedite its review, perform the necessary studies, and proffer an interconnection agreement that will allow the Project to operate upon execution and compliance with the terms on the interconnection agreement. So moved.
